These headphones are music to your ears

By Larry Katz

Listening to music on your iPod is great, except when you're traveling on the Green Line or a jet plane and you can't hear your music without turning up the volume to eardrum-destroying levels.

The solution is noise-canceling headphones, which you've no doubt seen advertised by a well-known and pricey audio manufacturer.

But wait. Now there's a bargain alternative for music lovers. Instead of several hundred dollars, NoiseBuster's Noise Canceling Headphones are now on sale for \$50, instead of the regular \$69.

And just like the expensive kind, they fit comfortably around the ears, fold up for easy carrying, come with their own pouch and also can be used to reduce background noise even when you're not listening to music.

Call 800-468-8371, or to get the discount price, buy online at www.noisebuster.net.
