**Stop Counting Sheep**

On my last two trips, I've taken along a set of NoiseBuster headphones manufactured by Pro-Tech. They are compact, comfortable, and really do cancel out the roar of jet engines—and talkative neighbors—giving you a more restful flight. They also double as a high-quality headset for much more comfortable listening to in-flight entertainment programs. They list for about \$69. Go to [www.protechcommunications.com](http://www.protechcommunications.com).

Happy Travels,

A handwritten signature in black ink that reads "Mike Thiel". The signature is written in a cursive, flowing style.
